C" How to do?	SAVE VIEW INSTRUCTION		

4. At the communication tab practitioner will see button **AUTHORIZE ACCESS TO ZOOM**, after clicking on button our application will use ZOOM Oauth API to generate a token for video calling API.

AccuDent.®
Accudent would like permission to:
$\checkmark$ Create a meeting for a user
Types of data Accudent will access:
<b>(1)</b>
Content
Manage content and information generated in the context of Zoom experiences, which may include audio, video, messages, meeting or chat name, agenda, transcriptions, and responses to polls and Q&A.

Allow Decline

5. After authorization, the practitioner will be redirected to our application and access token will be generated and the button will be turned to "REVOKE ACCESS FROM ZOOM" so practitioner can REVOKE ACCESS FROM ZOOM any time they want to.
